

Rooted in Relationships is coming to your community!

We are looking for child care providers, both centers and family child care homes, to be part of this exciting opportunity.

WHAT IS ROOTED IN RELATIONSHIPS?

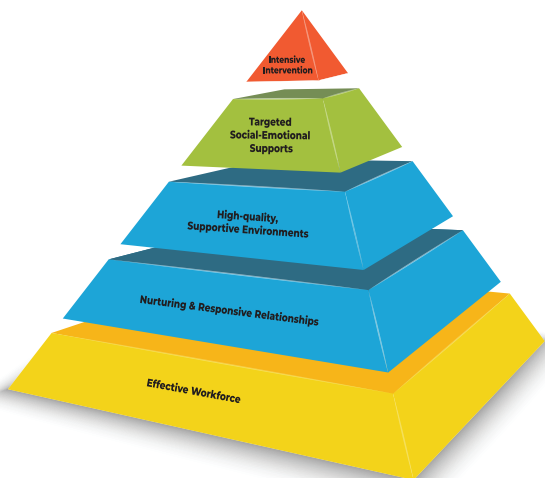

Rooted in Relationships is an initiative that partners with communities to implement evidence based practices that enhance the social-emotional development of children, birth through age 8.

Rooted supports communities as they implement the Pyramid Model in selected family child care homes and child care centers.

WHAT IS THE PYRAMID MODEL?

The Pyramid Model is a framework of evidence-based practices for promoting young children's healthy social and emotional development.

It builds upon a tiered public health approach to providing universal strategies for all children to promote wellness, targeted services to those who need more support, and intensive services to those who need them.

Learn more about the Pyramid Model here:
csefel.vanderbilt.edu

WHY SHOULD I USE THE PYRAMID MODEL?

It works! Research as shown that programs that use the Pyramid model have experienced a decrease in:

- Children's challenging behaviors
- Family and staff turnover

And an increase in:

- Children's social skills
- Family and staff satisfaction
- Caregiver knowledge and confidence in supporting children and families
- Positive program changes, including overall quality of care

WHAT ARE THE REQUIREMENTS TO PARTICIPATE?

- 3 Year commitment
- Monthly coaching
- Required trainings that are approved for NDE Professional Development Hours
- Provider collaboration meetings
- Participation in evaluation of the program

WHAT'S IN IT FOR ME?

- Stipends to attend each training session and participate in monthly coaching
- Access to additional social emotional grants
- Reduced challenging behaviors in your child care center or family child care home
- The opportunity to connect with other providers, coaches, and others in the community who support and value the work you do!
